Materials

● Multilayered SMS Material with Antistatic Properties and Alcohol Repellency
● HydraGuard® Absorbent Reinforcement

Product Attributes

• Armboard covers
• Tube holders
• Absorbent reinforcement material for fluid management

Sterilization

Sterile: Sterilized by EO (ethylene oxide). Product is sterile unless the package has been damaged or opened.
Non-Sterile: If a product is delivered non-sterile and is ultimately for use in sterile environments, it is intended to be sterilized by the re-packager. This includes further packaging and sterilization according to the validated processes of the re-packager. These products are to be sterilized by ethylene oxide (EO). Other methods of sterilization have not been validated by Alleset.

Shelf Life

Sterile: 5 years
Non-Sterile: Established at 5 years based upon sterile packaged product aging studies and normal warehouse storage conditions. After 5 years, the product should be performance tested to ensure compliance to specifications.

Product Certifications/Standards

• CE certified as Class I, according to MDR 2017/745 Annex VIII, Rule 1

Manufacturing Certifications/Registrations

• EN ISO 13485:2016
• Medical Device Single Audit Process Certified

Storage

• General warehouse conditions

106" (269cm)
62" (158cm)
