# About Alleset

Headquartered near Atlanta, Georgia, Alleset is a global manufacturer of healthcare products, offering an industry-leading portfolio of high-quality, cost-effective consumable medical products and unparalleled support services. We design, develop, and manufacture products and services focused on protecting the patient, healthcare provider, and surgical equipment.

Our team is committed to the advancement of healthcare, leveraging their extensive knowledge and experience to drive innovation. Continuous investment in technologies, capabilities and strategic manufacturing locations enables us to competitively meet the demands of our clients and to adapt quickly to changing market needs to better serve our customers, our communities, and our company

## THINK. MAKE. PROTECT.

### THINK.

With years of industry experience, we are a team dedicated to the continuous ideation and innovation of our value-added products and services. We make significant investments in our resources, employing over 50 engineers who work hand-in-hand with our subject matter experts across the organization.

This talent allows us to focus on evolving design and development, through research, materials, and manufacturing processes to deliver the highest quality products and services.

### MAKE.

We manufacture many of our products from start to finish, allowing us to assess, monitor, and control the process and ensure the highest quality products to meet the industry and customers' exacting requirements.

In today's cost-conscious environment, our vertical integration and global manufacturing footprint allows us to drive efficiencies and provide supply chain redundancy to our global consumers and procedure pack partners. Backed by a strong global regulatory and quality management system, we comply with rigorous industry standards for medical devices.

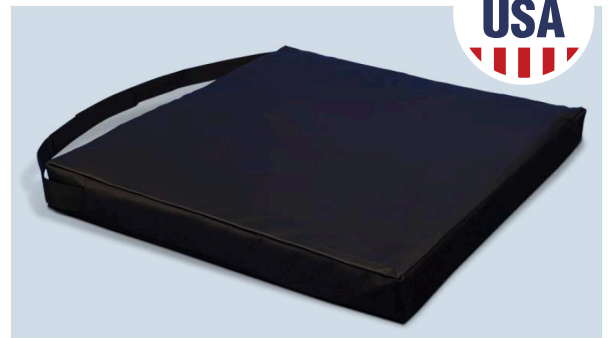

### PROTECT.

Our products and services focus on the protection of the patient, healthcare provider, and surgical equipment. Providing protection and reducing the risk is of paramount importance to us and our customers.

Our wide range of products are designed to provide options in the selection of the appropriate level of protection for the staff, patient, and procedural needs, while providing the optimal balance of protection and cost.
