BASINS AND TRAYS
PRODUCT CATALOGUE

ALLESET INTRODUCTION

Alleset is your “one-stop shop” for the widest variety of self-manufactured procedural disposables!

At the same time other companies are rationalizing their product offering, Alleset approaches each market and its customers with one question in mind... “What is essential to the healthcare provider?”

As a wholly-owned subsidiary of Global Resources International, Inc. (GRI), a market leading medical device manufacturer, the mission of Alleset is to develop and deliver high-quality, cost-effective product solutions to healthcare providers and supply chain partners as a means to improving the value proposition across the global healthcare marketplace.

Initiating at product ideation and development, through a wide variety of manufacturing capabilities, and offering several cost-effective distribution options, we maintain control of cost and quality throughout the entire product lifecycle.

As an organization we pride ourselves on delivering “true value” - The perfect combination of quality products, competitive pricing, and unparalleled support services.

BASINS & TRAYS OVERVIEW

Alleset is pleased to offer its extensive range of injection-molded Basins & Trays designed with the procedure pack manufacturer in mind. The basin family consists of a wide variety of sizes, and designs for specific procedures. The tray family consists of a wide variety of sizes, however this family also includes designs that utilize thin-wall injection-molding in our effort to reduce material costs and increase productivity.

- **Extensive range of injection-molded basins & trays** - Willingness to develop products that carry your brand identity
- **Commitment to continuous product development and line extensions** - Ask us about our ECO²™ family of products and our other line-extensions coming in 2015!
- **Manufactured using high-quality resin** - Our products do not contain natural rubber latex, nano-silver additives, or phthalates
- **Produced in Class 8, highly-automated cleanroom which offers a new standard in efficiency and cleanliness** - Your team does not have to inspect and remove debris as they would with basins and trays produced in a non-controlled molding workshop
- **De-ionizing anti-static process** - Reduces the risk of particulates being attracted to our products
- **Thoughtful packaging design, including two (2) case liners, that prevents damage and/or contamination during shipment and handling** - Fewer rejects for your team during pick-n-pull, inspection, counting, and assembly
- **Multiple logistics/inventory options** - Factory-direct, or local warehousing, provides you with a program that best supports your needs

Finally, purchase our Basins & Trays along with our ever-expanding range of self-manufactured Surgical Accessories - Reducing your cost by product, and by purchase order!
